“We work very closely with our suppliers to provide a selection of wines to cater for any of our guests.

We pride ourselves in supporting small artisanal growers, who follow Organic and Biodynamic farming practices. We believe in low sulphite, natural wines with no artificial additives, chemicals or preservatives. This gives the drinker nothing but the cleanest of flavours, which purely expresses the region and terroir of where the juice is from.

Don't worry, it's not all funky. There are plenty of elegant and classic styles, along with a good selection of superior wines to enjoy.

Our challenge is to deliver a wine list where we would be happy to drink from any bottle in our own time. We hope you agree! (If you don't there's always Gin)”
