# BULLETIN

Wessex Doors is Europe's largest manufacturer of low maintenance GRP (Glass Reinforced Polyester) garage doors and a leading innovator in the field of garage door design.

## 4 CROWN GOES WITH THE FLOW

The Four Crown Garage door has a new specification. The flat back to the door is replaced with a "flowcoat" of GRP. The feel of solidity and stiffness this brings to the doors construction is why we're bringing back this build method as standard on all Four Crown Doors.

We've listened to your feedback and the return of the "flowcoat" to Four Crown doors was high on your wish list. We're happy to oblige and go with the flow!

The new 4 Crown specification gives the consumer a clearer choice when selecting their door. A definite step up from Three Crown with its matted-in finish, "Flowcoat" produces a smooth wipeable surface and adds extra rigidity. The flat door back is now the sole preserve of Five Crown doors with their polyurethane insulating core for the ultimate in rigidity and thermal performance.

**The new 4 Crown will be introduced on all doors ordered after October 31st 2011**

All Four Crown doors are built and finished by hand.

The neat smooth finish of the new Four Crown door back.

## GRP - LIKE WOOD, ONLY WITHOUT THE WORRY!
