Double The Choice

GRP DOUBLE DOORS FROM WESSEX ■

The unique Strength to weight ratio of GRP makes it the ideal material to produce double garage doors which are strong yet manageable.

Wessex produces the largest range of G.R.P. made-to-measure door sizes and this includes a comprehensive range of double door styles.

Available in sizes up to 4877mm (16'0") wide, these door styles are designed to complement any home from the traditional to the modern.

All Wessex double doors are supplied on fully retractable slideaway gear – particularly suitable for the addition of electric operation and feature security locking as standard.

Double doors are available in two build qualities; 3 Crown and 4 Crown.

The double door range is supported with its own brochure allowing you to show customers just how their new door will look - a copy is enclosed and further copies are available by calling 01202 825 451.

Add to this the range of colours, the ten year warranty on finish, the resilient surface which can be seamlessly repaired should the worst happen, the minimal maintenance and...

...The next time you are quoting for a double door think GRP!
