BULLETIN

Wessex Doors is Europe's largest manufacturer of low maintenance GRP (Glass Reinforced Polyester) garage doors and a leading innovator in the field of garage door design.

HAXBY THE WIDEGRAIN WONDER

The York design is a classic. The simple, vertical boarded effect has endless appeal. The York is a closegrain design - you asked for a wide grain version and here it is - the Haxby. The Haxby adds an attractive bevel detail to the door ribs as a further refinement.

Wide grain really takes this popular door to a new level. The hand applied antiqueing brings out the grain and emphasises the quality of the detailing only GRP can produce. Our moulds are taken from softwood masters that simply can't be matched in real wood for an exterior grade finish! All woodgrain colours are available and we've enclosed a sample for you to see just good the finish really is!

GRP - LIKE WOOD, ONLY WITHOUT THE WORRY!
